# STRATOS CYBER INC.

## 2025

A leading global cybersecurity provider committed to protecting businesses from evolving digital threats and ensuring resilience in an ever-changing landscape.

---

Stratos Cyber's value is not complicated. It is to enhance our client's resilience against cyber attacks. Today companies are facing many complex challenges, one of which is increasingly advanced cyber threats. Our job is to give them the confidence that we have their backs in the protection of their data and brand.

**Anthony Subero**

Chief Executive Officer - Stratos Cyber

**Protecting Your Tomorrow, TODAY!**

# ABOUT US

Stratos Cyber is a leading innovator in cybersecurity, dedicated to helping businesses navigate an ever-evolving digital threat landscape.

Headquartered in Canada with a global reach, we specialize in delivering tailored security solutions that empower organizations to safeguard their digital assets, maintain compliance, and build resilience against future threats.

With a strong focus on innovation and governance, we leverage cutting-edge technology and a proactive approach to ensure our clients thrive in today's connected world.

# VISION

To be the trusted partner in cybersecurity, empowering businesses to operate securely in an increasingly digital world.

# OUR VALUES

**01**

## **Integrity**

Acting ethically and transparently in all business dealings, prioritizing doing the right thing over personal gain

**02**

## **Service**

We commit to being passionate and service-focused on our customers, staff, and other stakeholders, in our service delivery and operations. We build our company through an increasing series of trusted relationships, and not a series of transactions.

**03**

## **Innovation**

We enable our service offerings and operations with innovative technology to provide added value-outcomes to our clients and our staff.

# MISSION

**Mission – It is not complicated, to bring value to our clients through:**

- **Empowerment:** In our commitment to educate, we empower our clients to face the business challenges of cybersecurity.
- **Confidence:** Through the quality of our services, our expertise, and relationships, we bring confidence to our clients, that we have their backs.

## WHAT WE OFFER?

Boutique Innovative Services, Relevant and Proven Expertise, Educational Content, Agility to your needs, and Scalable Pricing.

## HOW DO WE DELIVER?

We commit to being passionate and service-focused on our customers, staff, and other stakeholders, in our knowledge, service delivery and operations. We build our company through an increasing series of trusted relationships, and not a series of transactions. Within each mandate we ensure:

1. We leverage your resources, optimising your investment.
2. There is a knowledge transfer process to educate and inform.
3. Continuous Support.

# KEY DIFFERENTIATORS

While there are good cybersecurity providers in the market (3000 estimated globally), our value proposition is centred on 5 key differentiators:

01

## Expertise

Our team comprises seasoned cybersecurity professionals and business executives with over 50 years of extensive collective experience in various industries, strategy development, governance, and change management.

02

## Innovation

We leverage innovative technologies, including artificial intelligence and machine learning, to stay ahead of emerging threats, resulting in an optimal Return on Security Investment (ROSI).

03

## Customer-Centric Approach

We tailor our solutions to meet the unique needs of each client, ensuring personalized and effective protection.

04

## Proactive Security

Our proactive approach focuses on preventing incidents before they occur, rather than just reacting to them, through our Continuous Threat Exposure Management (CTEM) approach.

05

## Pricing

By leveraging technology, outsourcing admin functions, and maintaining a workforce with 90% expertise in cybersecurity, we deliver high-quality services at a cost lower than competitors.

# OUR SERVICES

## Infrastructure Protection

Our Infrastructure Protection services ensure resilience against evolving threats through advanced threat detection, network security, and risk management strategies

- Attack Surface Management
- Penetration Testing & Ethical Hacking
- Red, Blue, Purple Team Exercises
- Security Posture Assessment

## Security Professional Services

Expert cybersecurity solutions tailored to your business. Our Security Professional Services provide strategic assessments, penetration testing, and risk management to help organizations strengthen their defenses and stay ahead of cyber threats.

- Cybersecurity Awareness trainings
- Executive risk awareness workshops
- Incident Response
- Threat Intelligence
- Phishing simulations & social engineering
- Ransomware resilience assessments

# OUR SERVICES

## Security Consulting Services

Cybersecurity strategy, compliance, and risk management—designed for business resilience. Our Security Consulting Services provide expert guidance on governance, threat mitigation, and regulatory alignment to enhance your security posture.

- Implementation of risk management strategies to mitigate potential threats
- Security Architecture Reviews
- Audit readiness & reporting
- Regulatory alignment (GDPR, HIPAA, CCPA, NIS2, PCI etc.)

## Cloud Security Services

Secure your cloud environments with advanced protection and compliance-driven solutions. Our Cloud Security services safeguard multi-cloud and hybrid infrastructures, APIs, and workloads, ensuring end-to-end visibility and resilience against cyber threats.

- Cloud Security Architecture Assessment/Review
- Cloud Security Architecture Design

# OUR SERVICES

## Application Security

Build secure applications from the ground up. Our Application Security services integrate secure coding practices, vulnerability assessments, and threat modeling to ensure robust protection against exploits, OWASP Top 10 risks, and API threats.

- Secure Code Review and Vulnerability Assessments
- Web Application Firewall - managed services and/or configuration/assessment
- API Security Testing and Monitoring
- Application Express Threat modeling

## Data Security & Privacy

Protect sensitive data and maintain compliance with evolving privacy regulations. Our Data Security and Privacy solutions provide encryption, DLP, and regulatory adherence to prevent data breaches and unauthorized exposure.

- Encryption and secure data storage solutions.
- Data loss prevention (DLP) strategies to safeguard sensitive information.
- Zero-Trust Framework
- Privacy Risk Assessment & Privacy Impact Assessments

# OUR TEAM EXPERTISE

## Driven by Experience. Defined by Excellence.

At Stratos Cyber, our strength lies in the depth and diversity of our team—a collective of seasoned cybersecurity professionals, ethical hackers, AI risk advisors, cloud security architects, and governance specialists. With decades of combined experience across critical industries, we bring unmatched insight and hands-on expertise to every engagement.

## Who We Are

Senior Security Experts with 20-30+ years of experience

Our consultants have led and executed high-impact security engagements across banking, energy, healthcare, telecom, technology, manufacturing, and government sectors—including Fortune 500 and critical infrastructure clients.

## Globally Certified Professionals

Our team holds industry-leading certifications, including but not limited to:

- **CISSP** – Certified Information Systems Security Professional
- **CISM** – Certified Information Security Manager
- **CISA** – Certified Information Systems Auditor
- **CDPSE** – Certified Data Privacy Solutions Engineer
- **ISO 27001** Lead Auditor
- **OSCP** – Offensive Security Certified Professional
- **eWPTX** – Web Application Penetration Tester eXtreme
- **eMAPT** – Mobile Application Penetration Tester
- **CEH** – Certified Ethical Hacker
- **PMP** – Project Management Professional

# OUR TEAM EXPERTISE

## AI & Cloud Security Specialists

We bring targeted knowledge in securing AI/ML environments, including experience with MITRE ATLAS, NIST AI RMF, and cloud-native architectures (AWS, Azure, GCP).

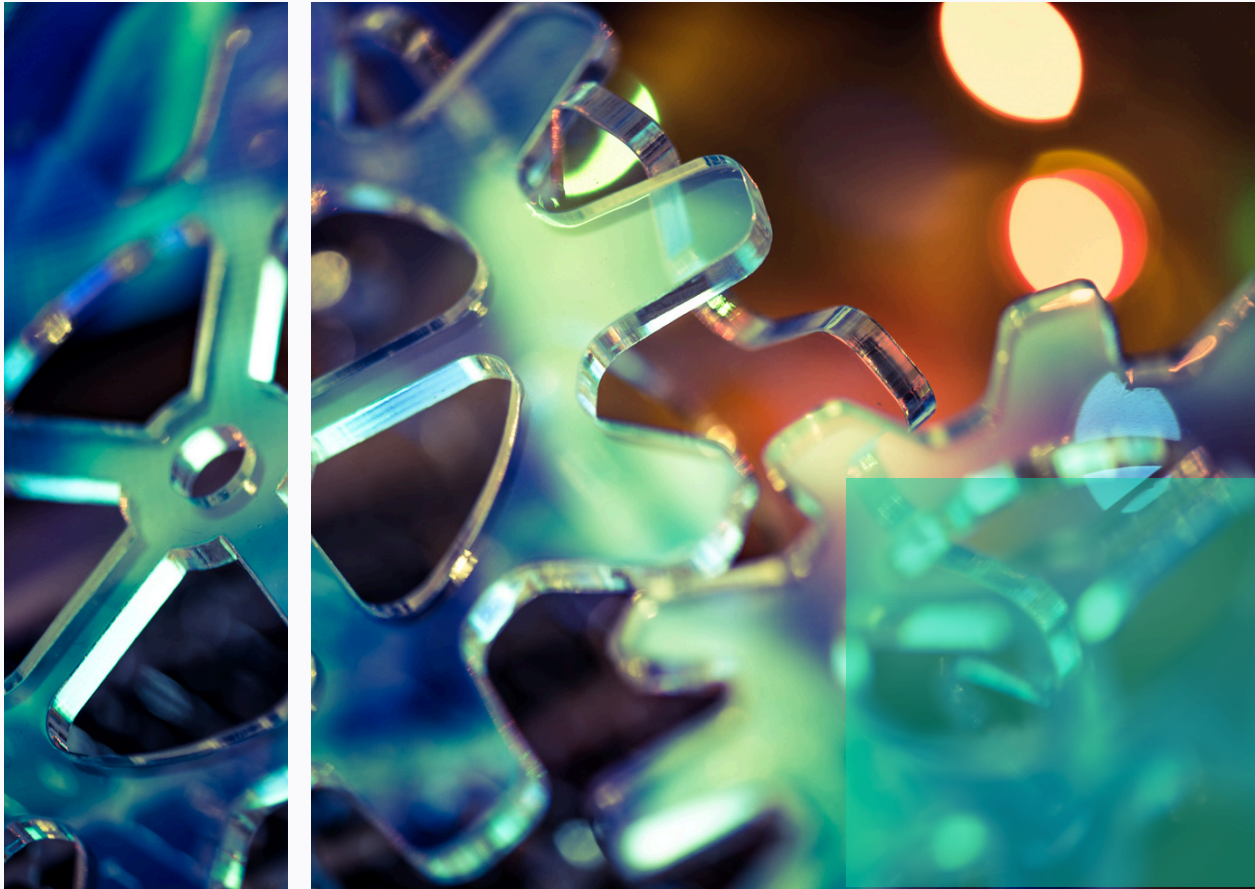

## Strategic Advisors and Practitioners

Our leadership team includes former CEOs, COOs, CRO, CISOs, SOC leaders, and security architects who understand how to communicate risk and build long-term resilience from the boardroom to the terminal.

## What Sets Our Experts Apart

- Regulatory fluency across PCI DSS, GDPR, NIS2, HIPAA, ISO 27001, SOC 2, and more
- Proven ability to communicate risk in business terms
- Real-world offensive security experience—not just tools, but tactics
- Embedded support for remediation, training, and security program maturity
- Continuous learning culture with R&D innovation in AI, cloud, and emerging threat vectors

# R&D TEAM

## Innovating the Future of Cyber Defense

At Stratos Cyber, we believe cybersecurity must evolve faster than the threats it combats. Our Research & Development (R&D) division is leading the way in intelligent, AI-driven security solutions, with a special focus on Industrial Control Systems (ICS), IT, IoT, and Operational Technology (OT) environments.

### Innovation at the Core

Our R&D division is dedicated to pushing the boundaries of cybersecurity, continuously designing forward-thinking solutions to outpace evolving threats.

### Resilience Through Customization

We tailor security frameworks to the unique needs of IT, OT, ICS, and IoT environments, delivering customized solutions that drive resilience and operational excellence.

### Collaboration & Expertise

Comprising industry-leading cybersecurity researchers, data scientists, and engineers, our R&D team partners with global experts and institutions to stay ahead of emerging threats, ensuring innovation that delivers unmatched security for our clients.

# METATRON®

## What is Metatron®?

Metatron®, AI-enabled Cyber Security Defense platform (CSDP), a cutting-edge solution that leverages artificial intelligence (AI), machine learning (ML), and automation to significantly enhance threat detection, response, and overall security posture and support your security governance. The platform is scheduled to be launched in **September 2025**.

## AI-Driven SOC Platform

In today's evolving threat landscape where traditional SOC's struggle to keep up, Metatron® leverages AI and ML for real-time monitoring, automated response, and predictive analytics—proactively mitigating risks, enhancing reporting, and maximizing security investments.

## Seamless Integrations

The Metatron® platform will be designed to integrate seamlessly with existing security tools and systems, ensuring minimal disruption to ongoing security operations.

# EMPOWERING BUSINESSES WITH RESILIENCE

Our industry experience ensures that we tailor security strategies to meet specific business challenges, helping organizations stay ahead of threats, maintain compliance, and build long-term resilience.

## Financial Services & Banking

Helping financial institutions mitigate fraud, secure transactions, and comply with regulations like PCI DSS and GDPR to maintain trust and operational integrity..

## Technology

Securing technology providers by safeguarding digital assets, cloud environments, and APIs to defend against evolving cyber threats while enabling innovation.

## Critical Infrastructure

Enhancing critical infrastructure security with advanced threat detection and risk mitigation to safeguard essential services from sophisticated cyber threats.

## Telecommunication

Strengthening telecommunications security by securing network infrastructure, preventing data breaches, and mitigating emerging threats in communication and 5G technologies

## Manufacturing

Enabling manufacturers to protect industrial control systems (ICS) and supply chains, minimizing cyber risks and ensuring business continuity.

## Oil & Energy

Protecting oil & energy operations by securing OT and critical infrastructure, ensuring resilience against cyber threats targeting power grids and industrial systems.

## Healthcare & Pharmaceutical

Safeguarding healthcare and pharmaceutical sectors by protecting sensitive patient data and research assets while ensuring compliance with HIPAA, GDPR, and other regulations.

## Retail Services

Ensuring retail resilience by securing e-commerce platforms, POS systems, and customer data, preventing fraud, payment breaches, and supply chain vulnerabilities.

# WHY PARTNER WITH US?

## Industry-Leading Expertise

Decades of experience securing critical industries, from financial services to critical infrastructure, with tailored cybersecurity strategies.

## Innovative & AI-Driven Solutions

Leveraging advanced AI, machine learning, and automation to detect, prevent, and respond to cyber threats faster than traditional security models.

## Custom-Tailored Cybersecurity

No one-size-fits-all approach—our solutions are designed to align with unique business needs, compliance requirements, and industry challenges.

## Seamless Integration & Scalability

Effortless integrations into existing infrastructures, ensuring minimal disruption while enhancing protection.

## Regulatory & Compliance Mastery

Deep expertise in GDPR, HIPAA, PCI DSS, NIS2, and other global & local regulations, ensuring businesses meet security and legal requirements with confidence.

## Long-Term Strategic Partnership

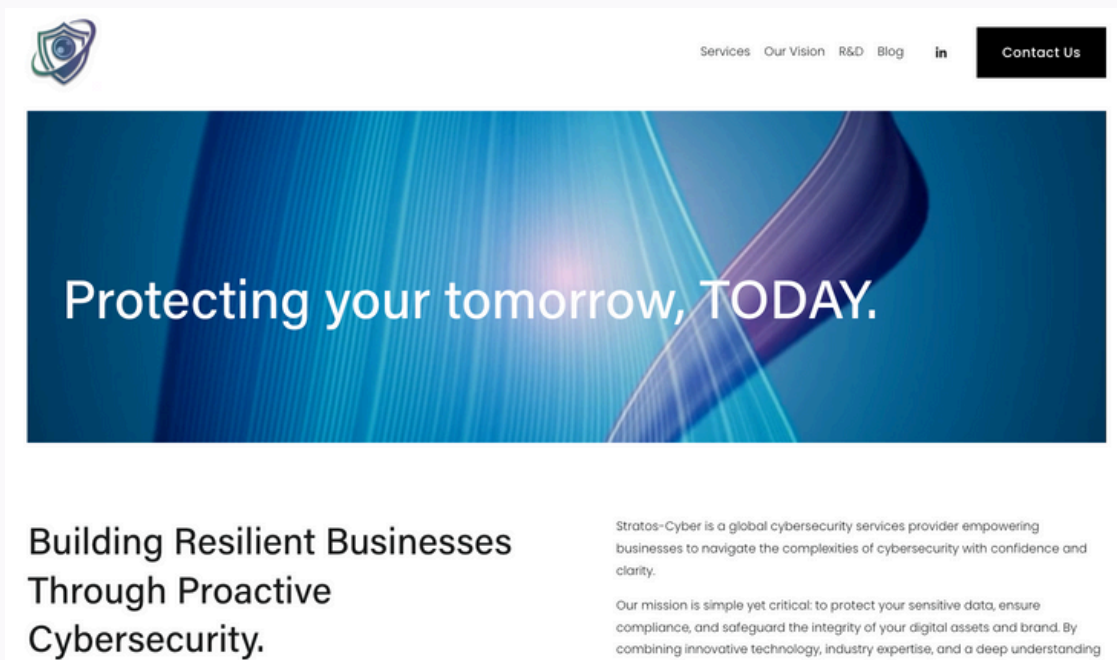

More than just a service provider, we act as trusted advisors, continuously evolving your security posture to stay ahead of emerging threats.

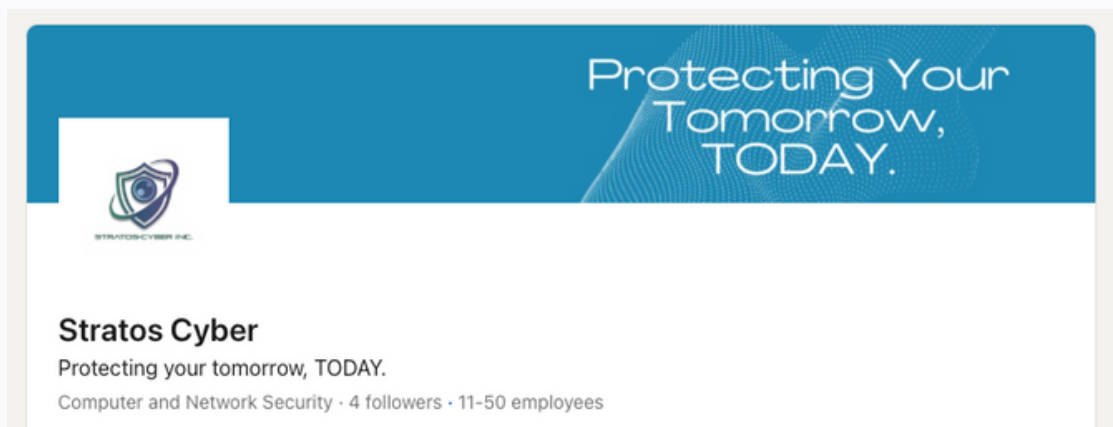

# FIND US

Stay updated with the latest in cybersecurity innovation, industry insights, and expert advice.

Follow us on social media for real-time updates, thought leadership, and cybersecurity best practices.

# THANK YOU

Thank you for taking the time to learn about Stratos Cyber. We are dedicated to partnering with businesses like yours to build resilience, protect critical assets, and navigate the complexities of today's cybersecurity landscape. At Stratos Cyber, we believe in creating lasting partnerships built on trust, innovation, and a shared commitment to excellence. If you'd like to explore how we can support your cybersecurity goals or discuss tailored solutions, we are here to help.
