

LEAD WITH CONFIDENCE.

DEFEND WITH CLARITY.

CYBER SECURITY AWARENESS TRAINING FOR CARIBBEAN FINANCIAL INSTITUTIONS

Offered by Stratos Cyber

WHY THIS MATTERS NOW

The Caribbean & LATAM is the fastest-growing region globally for cyber incidents. Financial institutions are among the most targeted sectors.

Financial institutions face:

- Escalating digital fraud & ransomware
- Regulators demanding active Board oversight
- Rising reputational and systemic risk
- Budget and talent constraints
- Increasing dependency on third parties and cloud services

CYBER RISK IS NO LONGER A TECHNOLOGY ISSUE. IT IS A LEADERSHIP & GOVERNANCE IMPERATIVE.

In a cyber incident, the first hour matters most.

Leadership decisions during this window often determine:

- Customer trust
- Financial and reputational impact
- Regulatory outcomes

This training prepares leaders and staff before an actual incident tests them.

OUR APPROACH

Designed for Caribbean Banking Realities

Stratos Cyber delivers **practical, role-specific Cybersecurity Awareness Training** that strengthens:

- Governance
- Decision-making
- Operational readiness
- Organisational culture

We do **not sell fear**. We build **confidence, clarity, and leadership capability**.

Ana bridges executive strategy with operational execution and grounding governance in real-world realities.

WHY STRATOS CYBER

Built for the Caribbean. Deliver with Global and Practical Experience.

We combine:

- Deep regional banking experience
- Global cybersecurity leadership
- Practical, executive-ready guidance

No scare tactics.

Clear leadership focus.

No unnecessary complexity.

We help organisations lead, not react.

CYBERSECURITY LEADERSHIP FOR TODAY'S DIGITAL AGE

Stratos Cyber empowers Boards, executives, and employees to transform cybersecurity from a technical concern into a leadership advantage.

Our Mission

To help organisations lead, secure, and thrive in a world where cyber risk is now a foundational business responsibility.

When Cyber Risk Demands Leadership, Not Just Technology
